## VITA Tax Service Program

Last year, 1,088 taxpayers and their families in District 14 were helped by the Volunteer Income Tax Assistance Program. The VITA program is a free tax preparation service offered to residents in the south end. "I am so pleased with this program because it helps families who earn less than \$42,000 a year with the filing of taxes," says Councilman Bob Henderson (D-14).

The VITA Program will begin January 16th and not end until April 15<sup>th</sup>. There is a goal this year to help 2000 people with their taxes. If you would like more information about the VITA service or would like to volunteer, contact Councilman Henderson's office at 574-3459 or 574-3529.

## Construction Started on Bob Evans

The Southwest will have a new dining option when the new Bob Evans opens this year. Ground was broken at the newly renovated Shively Center and site preparation has begun for construction. The new Bob Evans should be open in about 4 to 6 months. The new Bob Evans restaurant is another great addition to the Shively Center which has seen a complete make-over from an eye-sore into an attractive mall. Area residents were in hopes of retail locating in the Shively Center but previous deals did not work out. Kohl's declined locating a store at the Shively Center or anywhere in the Southwest because they did not feel it was a "Kohl's type of neighborhood", a slap in the face for anyone who resides in the south end. The Shively Center is a good sign that change is coming to the south end.

## Colonial Gardens Update

Colonial Gardens has been designated an "Individual Local Landmark" by the Louisville Metro Landmarks Commission. This was not news the South End Investment Group wanted but they have not given up on their plans completely.

## Project Hope Offers Help and Hope

Project Hope, a program started at Valley View Church by Bill Morris in January 2008, is designed to help those who cannot help themselves. After some urging from Valley View's Pastor, Joel Carwile, and inspiration from the Lord Bill decided to organize a program for the elderly, disabled, single parents, and anyone who cannot do for themselves because of their circumstances. They have cleaned gutters, mowed lawns, and replaced major household appliances. They have also made homes more accessible to disabled families by building wheelchair ramps. Project Hope consists of about 200 volunteers including everything from electricians, plumbers, carpenters, kids who decorate gift bags, and the elderly who volunteer to be greeters. The program is cost free to any recipient who needs help. Project Hope offers maintenance services which include house cleaning and yard work. They offer construction services consisting of interior and exterior house repairs, as well as roof and fence repairs. The volunteers of Project Hope will drive you to your doctor appointment, help you move, or help with social services. The auto service will make minor repairs and recondition vehicles. Project Hope is there to lend a helping hand to those who need help the most. The program is always looking for volunteers. If you would like to volunteer or make a donation please call the church office at 935-5142 for more information. If you need help and would like to apply for assistance please call 935-5142 for help.

## Commuter Rail Coming to Southwest?

At the last Southwest Dream Team meeting, John Owen: train expert and resident of the Portland neighborhood, discussed the possibility of operating a commuter rail line from Elizabethtown to Downtown Louisville. Mr. Owen explained, a commuter train running along Dixie Highway would give the Southwest an opportunity for development since there are many property locations ideal for station locations. Wherever the train stopped could bring new restaurants and shopping choices to that area.

Possible locations mentioned at the meeting were Kosmosdale, Valley Station, Valley Farms, Pleasure Ridge Park, and Shively. Mr. Owen has long been an advocate of the commuter rail and first started studying the possibility in the 90's when he got TARC involved in reviewing the opportunity. No further plans have been made but interest in commuter rail is growing again among residents and officials. Stay tuned for further updates.

## The Weekly Weird, True, and Off the Wall

**New York, New York:** Burger King has launched a

new men's body spray called "Flame," which it describes

as "the scent of seduction with a hint of flame-broiled

meat." The fast food chain is marketing the product

through a Web site featuring a photo of its King character

reclining fireside wearing nothing except for an animal fur

strategically placed. A great gift idea for Burger King fans.

Just beware of dogs and wild animals who might mistake

you for a flame-broiled meal.

## The Weekly Geekly

**Oldest Holiday!** The first "new year" celebration was

4000 years ago held in ancient Babylon. That makes the

New Year holiday the oldest of all.

## The Weekly Quote

"Many people look forward to the New Year for a new

start on old habits."

Anonymous
